Your All-In-One Jewelry Photography Solution

E-commerce Ready Images

78% of customers prefer seeing images on a white background. GemLightbox allows you to achieve a natural white background using nothing more than just your smartphone.

Take images directly with your smartphone and upload them onto your favorite marketplace.

Inventory and appraisals

Capture images immediately off your smartphone once your stock arrives, use the images for appraisals or directly send them into your inventory control system. Who doesn't love a clean, beautiful looking inventory?

Capture images directly with your smartphone and upload them onto your favorite CRM or POS system.

Dominate Social Media

Our data shows that 3 images a day is what you need to dominate social media. It's better to do 3 updates per day than 1 update every couple months.

Take social media to the next level with GemLightbox.

Waste Electrical and Electronic Equipment Directive

Features

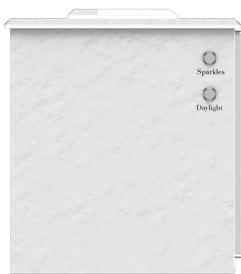

Two Shooting Angles

GemLightbox comes with two shooting angles. The front reflector can be adjusted vertically or horizontally to work with all smartphone devices.

The top diamond piece from the lid can be removed to reveal the top shooting angle. Use the top shooting angle to give a birds-eye view of your jewelry.

Capture all angles of your jewelry

Plug & Play

Our plug & play solution means no training or prior photography knowledge is required. Simply push the power button for the perfect lighting conditions every time!

GemLightbox comes fully assembled with all the necessary accessories so you can start shooting straight away.

No training of prior knowledge required.

Capture Amazing Facets

Every GemLightbox is fitted with two additional lighting options.

Use "Sparkles" to bring out the blind facets and sparkles in your gemstones or bring out the fires in opals.

Use "Daylight" to bring out the warmer tones in your jewelry. "Daylight" works best with colored gemstones and hand photography.

Two additional lighting options to bring the best of your gemstones.
